

## PVC StarGrip™ Series 4400 Wedge Action Bell Restraint

Star® Pipe Products is proud to introduce the newest member to its Import Joint Restraint product line: the PVC StarGrip® Series 4400. Available in sizes 14" to 36", this product is designed to restrain AWWA C905 CI OD PVC pipe bell joints.

### PVC StarGrip™ Series 4400 Features:

- For use on ANSI/AWWA C905 CI OD PVC pipe
- For new push-on pipe bell installations only
- The restraint system includes a modified PVC StarGrip®, a solid harness ring, nuts, and double-ended rods.
- The bolt circle diameter for the modified PVC StarGrip® is larger to allow extra clearance.
- By using larger diameter rods, fewer rods are needed to achieve its rated pressure. This results in less hardware to assemble.
- The rings, wedges, and actuating bolts are made of high strength ductile iron. The restraint rods and nuts are made of high-strength-low-alloy steel per the requirements of ANSI/AWWA C111/A21.11

*Star Pipe Products has been manufacturing and distributing quality iron products for the water and wastewater industry for 33 years. With thirteen distribution centers across North America and over 300 employees, Star Pipe Products remains committed to providing customers with quality products and professional service.*
